SUMMARY

Second-year B.Tech Computer Science and Engineering student specializing in Artificial Intelligence, Machine Learning, and Robotics. Interested in web development, practical software engineering, and AI-powered business solutions. Experience includes website development and IT/finance operations in pharmaceutical distribution, along with Java and C++ bootcamps and a completed Java JSP/Servlets online shopping university project.

SKILLS

Languages: C, Java, C++, JavaScript ,Python
Web: React, TypeScript, Node.js, JSP, Servlets, HTML/CSS
Database: MongoDB , MySQL workbench
Tools: Visual Studio Code, Git, GitHub, Apache Tomcat
AI/ML: Currently learning AI/ML fundamentals; do not claim proficiency in libraries not yet used

EXPERIENCE

Web Developer / IT & Software Operations Manager
Indian Drug Distributors | *10 Aug 2026 – Present*
• Developing the company website using React, TypeScript, Node.js, and MongoDB.
• Working to improve the company's online presence for its pharmaceutical distribution business in the Dehradun and Rishikesh region.
• Researching possible ERP integration and AI-based workflow automation, including voice ordering and payment reminders.

IT and Finance Intern
Amirav Pharma Pvt. Ltd. | *05 May 2026 – 01 Sep 2026*
• Supported financial record-keeping, invoice processing, and transaction documentation.
• Assisted with billing operations and maintaining business records.
• Supported day-to-day IT and finance workflows using business software and digital tools.

Deloitte Australia Technology Job Simulation on Forage
October 18, 2026
* Completed a job simulation involving development and coding
* Wrote a proposal for creating a dashboard

PROJECTS

Indian Drug Distributors Website
React, TypeScript, Node.js, MongoDB | *In progress*
• Developing a business website to establish an online presence for a pharmaceutical wholesale distributor serving Dehradun and Rishikesh.
• Exploring digital workflow improvements and potential ERP/AI automation integrations.
• Deployment: Not deployed yet.

Online Shopping System — University Project
Java, JSP, Servlets, Apache Tomcat | *Completed*
• Built a Java web application demonstrating an online shopping interface.
• Used JSP for dynamic web pages and Servlets for server-side request handling.
• Runs locally on Apache Tomcat; public deployment and repository link not yet provided.

Personal AI/ML Developer Portfolio
React, TypeScript | *Completed*
• Building a responsive developer portfolio to showcase projects, experience, and technical skills.
• Focused on a modern dark-navy design with cyan and violet accents.

CERTIFICATIONS

Deloitte Australia Technology Job Simulation on Forage | October 18, 2026
Introduction to Software Engineering Job Simulation — Commonwealth Bank / Forage | October 2026
Java Bootcamp — LetsUpgrade | June 2026
C++ Bootcamp — LetsUpgrade | April 2026
SOAR – AI to be Aware — Microsoft | January 2026
Basics of JavaScript Programming — OpenWeaver | July 2023

ACHIEVEMENTS

3rd Place — Techski's Castle — Youthopia 2025, DIT University; part of the Shadow Hunters team.
The Quiet Power Quiz — Participation certificate, Mahindra Group | February 2026.

EDUCATION

B.Tech, Computer Science and Engineering — DIT University, Dehradun | Specialization: Artificial Intelligence, Machine Learning, and Robotics | Expected Graduation: 2029
Class XII — SBM Public School | 2025
Class X — H.H.M School | 2023
